

12V 600W Pure Sine Inverter

LBS-INV-12600TS-EB

SPECIFICATIONS

Max Power	600W
Surge Power	1200W
Frequency	50Hz
No Load Current	0.5-1.0A
Dimensions	220 x 145 x 75mm
Weight	1.66Kg
Output	240V AC
Input Voltage	10-15VDC

DESCRIPTION:

Pure sine wave inverter, a perfect travel companion in the great outdoors when camping and caravanning. Easy and convenient connection options to your battery and enjoy the use of your 240V AC appliances anywhere, anytime.

Convenient DC connection options including alligator clips direct to the battery or from your vehicle cigarette socket. Generous dual AC sockets and a USB port to charge your smart phone or tablet.

A number of protection features including:

- Under voltage shutdown activation 10.0V
- Over voltage shutdown activation 15.0V
- Input under-voltage alarm: 10.6V DC
- Overload protection
- Thermal protection: 65°C ±15°C
- Short circuit shutdown
- 90% efficiency
